

UAMS Study Seeking Participants Wanting Help Staying Off Opioids

Have you recently detoxed from opioids?

You may be eligible for a research study at UAMS. This study offers Vivitrol® to people with an opioid problem to help avoid relapse.

The purpose of this study is to test treatment approaches, including medications, to help patients with opioid problems stay in treatment longer.

Am I eligible?

You may be eligible if you:

- Have recently detoxed from opioids and are looking for a medication to help prevent relapse OR have had one dose of Vivitrol in the past 28 days.
- Are at least 18 years of age

What is involved?

- Screening visit
- 24 in-person visits (over 1.5 years)
 - Medication for opioid problem
 - Medical management visits
 - Access to a mobile health app offered to half of participants

*There is **NO COST** to participate, and you will be compensated for your time. If you have questions or would like to enroll, please contact the research team at*
